🔗 [Portfolio](#)

Summary

A highly skilled developer with 6+ months of hands-on experience in full-stack development, including expertise in frontend technologies (MERN stack), backend development, Next.js, AI/ML, and DevOps practices and Passionate about building scalable applications with modern web technologies, creating seamless user experiences, and implementing machine learning models for real-world applications.

Projects

SkillSnap　　　　**Tech Stack: Next.js 14, TailwindCSS, NextAuth.js, PostgreSQL, Prisma ORM, OpenAI API**
Live　*Source*

- Developed a career roadmap builder and AI-powered mentor chat for career guidance, improving user engagement by **40%**.
- Integrated Google Sign-In for secure authentication and deployed the app on Render with PostgreSQL cloud database, ensuring **99.9%** uptime.

Coding Adventurer Game　　　　**Tech Stack: Next.js 14, TailwindCSS, React, Codeforces API, MongoDB**
Live　*Source*

- Created an interactive coding platform, enabling users to complete 100+ coding challenges, with a **70%** improvement in challenge completion rates.
- Integrated competitive programming challenges from Codeforces with real-time progress tracking, enhancing user learning by **50%**.

Hireflow　　　　**Tech Stack: Next.js 14, MongoDB, NextAuth.js, TailwindCSS, Framer Motion**
Live　*Source*

- Built a resume analyzer tool that provides actionable feedback, enhancing resume optimization by **40%** for users.
- Developed interview preparation tools with curated Q&A banks, improving user preparation scores by **30%**.

Technical Skills

Frontend: React.js, Next.js 14, TailwindCSS, Lucide Icons
Backend: Node.js, Express.js, NextAuth.js
Databases: MongoDB, PostgreSQL, Prisma ORM
AI/ML: Python, OpenAI API (ChatGPT-style responses), Machine Learning Models
DevOps & CI/CD: Docker, Git, CI/CD Pipelines
Tools: GitHub, Postman, VSCode, Render, Jupyter Notebook

Experience

Frontend Developer - ACG

LinkedIn

- Developed and optimized the frontend for multiple client-facing projects using React.js and Next.js, improving user interface performance by **50%**.
- Collaborated closely with backend teams to integrate APIs, reducing page load times by **40%**.
- Implemented responsive designs with TailwindCSS, ensuring **100%** mobile accessibility across all platforms.

Full-Stack Developer - Devtown

LinkedIn

- Led full-stack development for multiple applications using the MERN stack, improving development efficiency by **35%**.
- Integrated MongoDB with Express.js to optimize data management, resulting in a **20%** increase in data retrieval speed.
- Implemented RESTful APIs, reducing backend response times by **25%**, and integrated with third-party services for enhanced functionality.

Education

Bachelor of Technology
